ABOUT US

Nees Engineers Pvt. Ltd. is an innovative engineering firm with over 12 years of experience in the hydro-electric power sector. Specializing in E-M Equip. & Spare Parts Sales and Services, we prioritize sustainable energy solutions, cutting-edge technology, and exceptional client service. Our expertise spans from complete hydro power plant solutions of all sizes to plant diagnosis, refurbishment, modernization, and upgrades. With a skilled team deeply knowledgeable in hydroelectric systems, we ensure top-quality products and services to meet diverse client needs.

At **Nees Engineers**, we understand the critical role of reliable **spare parts** in maintaining the operational efficiency of hydroelectric power systems. Our focus on sales extends beyond equipment to encompass a comprehensive supply of hydro-related spare parts. We provide genuine spare parts sourced from trusted manufacturers, ensuring compatibility, durability, and performance excellence.

MISSION

Our mission is to drive the adoption of clean energy by offering top-notch hydro power equipment along with a comprehensive range of spare parts and exceptional services, contributing to a greener and more sustainable future.

GLOBAL COLLABORATIONS

Our collaborations in the hydro sector extend to teams in India and China, including manufacturers, suppliers, and engineering service providers. This network enables us to leverage their expertise and resources, ensuring a seamless supply chain and access to cutting-edge technologies for our clients' success in the hydroelectric industry.

WHY CHOOSE US

EXPERTISE

Our team of professionals brings extensive knowledge and experience in the hydro power sector, ensuring reliable solutions that align with industry best practices.

QUALITY

We source and provide only top-quality equipment and components, prioritizing performance, durability, and sustainability.

CUSTOMIZATION

We understand that each hydro power plant is unique. Our solutions can be tailored to meet your specific requirements and challenges.

RELIABILITY

We are committed to delivering on our promises, providing dependable products and services that contribute to your plant's success.

Partner with **NEES** to experience unmatched hydro power plant equipment sales and service. Contact us today to learn more about how we can help you achieve your renewable energy goals. Together, let's power a greener future.

SPARE PARTS

We stock a comprehensive inventory of spare parts for hydro equipment, ensuring prompt availability and quick turnaround times for maintenance and repairs. Our genuine spare parts are sourced from reputable manufacturers to guarantee compatibility and performance. Our extensive inventory and efficient supply chain management ensure prompt delivery and minimal downtime for our clients.

SERVICES

- HYDRO POWER EQUIPMENT SALES
- SPARE PARTS
- INSTALLATION AND COMMISSIONING
- UPGRADES AND RETROFITS
- CONSULTING AND DESIGN

KEY DIFFERENTIATORS

Expert Team: Our team comprises experienced engineers, technicians, and consultants with in-depth knowledge of hydro power systems.

Quality Assurance: We prioritize quality in both our products and services, ensuring long-lasting and reliable solutions.

Sustainability Focus: We are dedicated to advancing clean energy solutions, contributing to a more sustainable and eco-friendly world.

Global Reach: Our services extend across international borders, catering to clients in various regions with diverse energy needs.

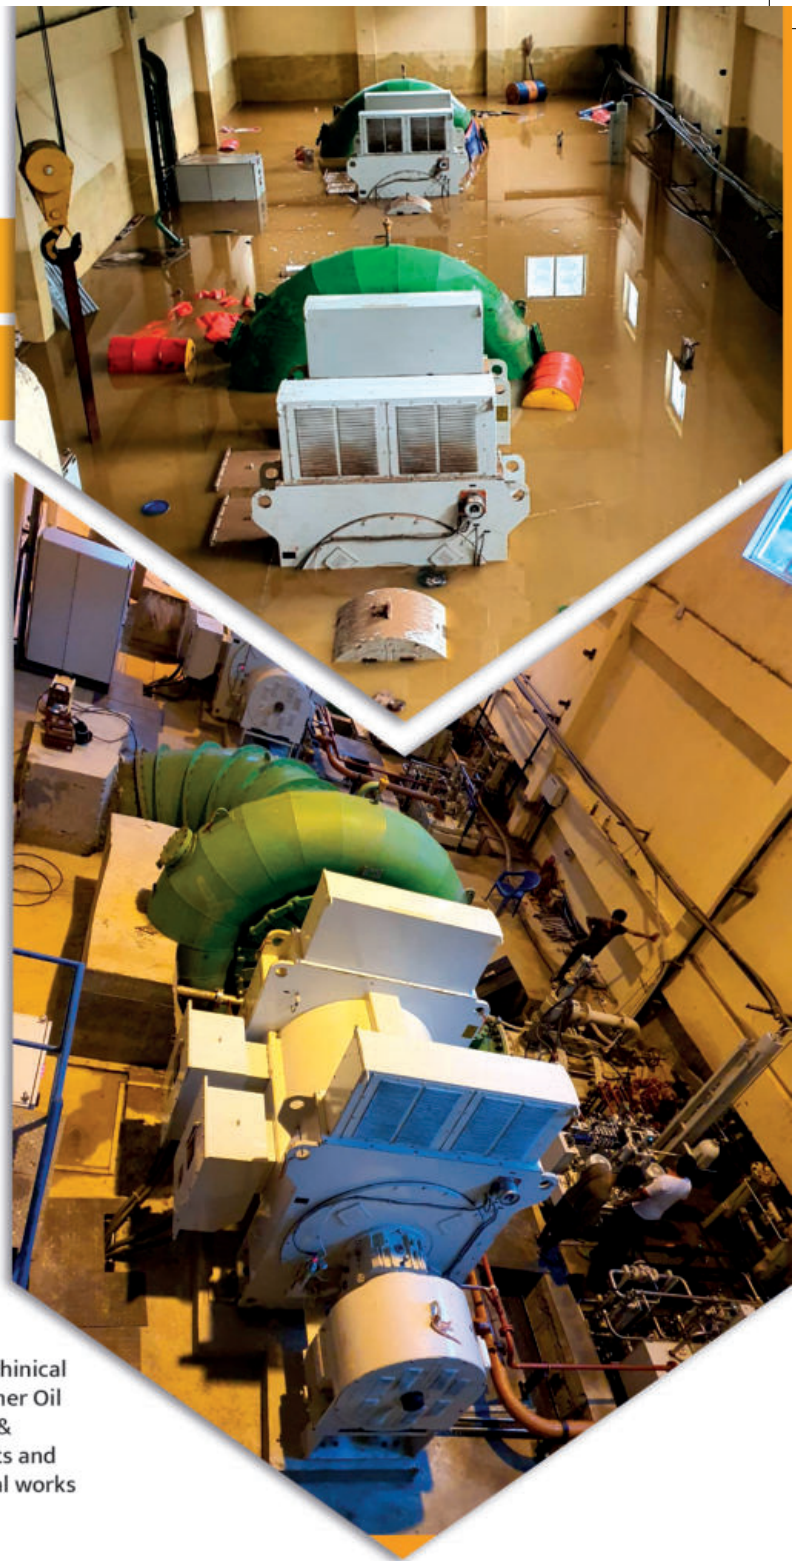

Innovation: We stay updated with the latest technological advancements, offering cutting-edge solutions that improve efficiency and performance.

COMPLETE HYDROPOWER RESTORATION SERVICE

NEES ENGINEERS is pioneer company in Nepal with more than 12 years of glorious success in Hydropower Projects for repairing, operation, maintenance, installation and many more...

We Supply all kinds of Electro-Mechanical Equipment, Testing kits, Transformer Oil Filter Machine, Transmission Line & Substation Accessories, Spare Parts and all tools used in Electro-Mechanical works for Hydropower Projects.

OUR SERVICES

- ✓ Electro-Mechanical Equipment (Water to wire) Package Supply (Indian and Chinese)
- ✓ Testing & Commissioning
- ✓ Operation & Maintenance
- ✓ E.M, Selection, Management and Site Supervision
- ✓ Rehabilitation Work
- ✓ Renovation, Modernization and Upgrading of Hydropower Plant
- ✓ Supply of Generators, Turbines, Controls & others Hydro Electric and Hydro Mechanical Equipment and Spare Parts
- ✓ Service and Maintenance Contract: Annual Maintenance Contract (AMC), Long Term Service Agreement (LTS)
- ✓ Substation/Switchyard Equipment/Materials (Supply, Installation, Commissioning)
- ✓ Transmission Line Materials Supply
- ✓ Call Basis Service
- ✓ Transformer Dehydration & Filtration
- ✓ All kinds of Lube Oil Supply for Hydro
